THIRUKURAL

குறள் : 463

ஆக்கம் கருதி முதலிழக்கும் செய்வினை
ஊக்கார் அறிவுடை யார்.

To risk one's all and lose, aiming at added gain,
Is rash affair, from which the wise abstain

aakkam karudhi mudhalizhakkum seyvinai ookkaar aRivutai yaar

Meaning : Wise men will not, in the hopes of profit, undertake works that will consume their principal.

The Kural 463 under Wealth Management topic warns us to do a calculated risk in every investment we make; balancing risk and rewards, the right way. It says that the wise people will always conserve what is already gained before entering on a doubtful enterprise. They will first consolidate what has been gained and will never make an investment on any questionable undertaking for just a possible but doubtful future gain and in turn lose all that they had as principal or the earlier gain.

Understanding the relationship between risk and reward is a critical piece of investment knowledge one must have before their start.

Everyone of us aspire to become rich, create long term wealth and live peaceful life with all the money we make. However, at times, we lack right information about wealth making methods or investments, the wrong planning, indiscipline, impatience etc hinders us reaching our goals and exhaust whatever we have in hand as principal leaving us without any resource left with us.

Simple and age old golden rules like spending less than our earnings, diversifying our investments, trusting our investments and giving it time to mature and settle, being patient and not gambling with our principal, reshuffling the asset allocation over a period of time to get best returns, etc applies as successful wealth management practices even today.

This kural also holds good if applied on nature, relationships and in all our everyday activities. We shall always try to conserve what we already have as principal and play a safe and sustainable method of multiplying it.

CUSTOMER IS THE KING

I availed a loan of Rs.2.1 lacs during June 2018. I have a Two Wheeler workshop in Madurai. During COVID Lockdown I learned from many TV news channels and newspapers that the RBI has given an option of moratorium for 3 months. It sounded like an offer to me. I thought I would opt for Moratorium when I heard the news that I can choose not to pay my EMI and had other plans like I can use the money for other long time plans of my family.

So I told the Veritas team that I wanted to opt for this moratorium. They said that I can very well avail the same. Meanwhile they checked my repayment track and they asked me a few clarifications that whether my shop was functional or not, is my income the same or reduced, how about the basic needs of my family taken care of, kind of questions to analyse my need on moratorium. I answered them genuinely because the collection team of Veritas is so friendly and the rapport we have built during the last couple of years. From Veritas team, Mr.Gomathi Subramaniam and Mr. Sathish Babuji met me in person and told me about the pros and cons of moratorium. They clearly explained that this is not a waiver, just the grace period, and the calculator clearly highlighting the tenure increase and the impact. They advised me to go for this deferment plan only if I have a dire need, otherwise if I have sufficient resources to continue paying my EMIs.

After this meeting with the team, I discussed with my family and they also suggested not to opt for moratorium. So I continued to pay my EMIs irrespective of my earnings and spendings. I am very happy I got the right advice in the right time and made the right decision.

Veritas Turns "5"

VERITAS - COVID WARRIORS

Veritas Feels Proud of You!!

Daniel. R - Cluster Legal Manager - Coimbatore

When the first lockdown was announced, we were not aware of the impact on the life of ordinary people. Few days later, I noticed that many people were left without having their basic food needs satisfied, as they had no savings left with them during COVID. Then I thought of contributing something to them. When I shared this idea with my friends, they all agreed to this idea. Initially, in a small way, we started cooking for few people and distributed it. On noticing this, many known and some unknown people expressed interest in contributing funds to us to continue our food distribution for the needy. We got volunteers, who took part helping in cooking and distributing in the field. So, we went on successfully by gradually increasing the number of people we got to serve.

Many of our Veritas colleagues also took part in this activity by contributing funds and they also provided moral support when we needed it the most.

We successfully completed 45 days by starting with 50 people and ended with 600 people. I thank the almighty for giving me this opportunity, thanks to each and everyone who has been part of this initiative.

Elango.T - Senior Area Business Manager - Krishnagiri

We felt the importance of Masks and sanitizer to fight COVID. In our Krishnagiri Area, I wanted to distribute these preventive masks to everyone. Being a rural area, everyone was not very serious in wearing masks, so I thought of providing masks and sanitisers to my team, customers and the public field workers. I designed a cotton mask which is washable and comfortably breathable, with our company logo, which made our staffs to wear it willingly. I was able to sponsor these masks and sanitizers to all staffs at the area office, four branches and the public field workers around these branches. We offered masks and sanitisers to our customers who visited our branches.

Even now we are stocked adequately with masks and sanitisers for our usage. I personally feel very satisfied that I was able to equip my team with the safety measures, which motivates me as a person responsible for my team's health and safety".

Lokendra Singh Solanki - Senior Area Business Manager - Mandsaur (M.P.)

During the initial stage of the COVID in India, there was big shortage of protective kits in our place. So me and my family members decided to make cotton masks. At our home, with the domestic sewing machine we had, we stitched over two thousand cloth masks and the distributed the same to all the local people who were not able to get masks, free of cost.

It gave a great sense of accomplishment, when we felt that we have contributed towards safety of our fellow human beings during tough times. I feel very happy that I got these opportunity to serve the public, with my own earnings!

“

When the entire world is affected by COVID, every one of us at Veritas are taken care in all aspects to lead life as normal days. Parents never abandon their children in any predicament, and so is our Veritas at any situation. It feels great to be part of Veritas family!

Saranya.P - Admin Pondicherry:

”

ONBOARDING DURING COVID 19

Firstly I would like to express my gratitude to our MD and the Management team for providing me an opportunity.

My last working day in prior organization was 31 March 2020, after serving the mandatory notice period. The plan was to join Veritas in first week of April. As things would happen, the country went into lockdown which sent all plans haywire. I was in complete state of dilemma, as I would be unable to complete my relieving formalities, and wondering how to join during lockdown. Those were early days of lockdown, and it was expected to end on 17th April 2020. So I made up my mind to join after that date and called the every friendly Head-HR.

This is where I experienced my first culture shock. I was told by Head-HR that I could join remotely even during lockdown, as per my original plan. The same day, I was taken aback when CBO called and said that since you had exited from prior organization, there is no need to postpone the joining. Having associated with new generations private sector banks and a reputed NBFC in the past, I must say that nowhere in recent times would one expect the employee centricity as demonstrated by Veritas.

The D-Day was 3rd April 2020, and join I did from home. The day of my joining MD called personally to welcome on board to the Veritas family, which was again a first for me. All the formalities were done remotely, and my employee ID, and mail ID created in a jiffy. The character and attitude of all individuals are developed by the people whom we interact during the journey called life. Be it the schools you went, the college you enjoyed or the jobs we do at organizations, I am sure that Veritas would leave an indelible mark in me as well.

COVID & AMPHAN

The Double Challenge, made our EAST team stronger!!

The month of May, witnessed the most fiercest cyclone, which knocked down huge trees, lamp posts, electric wires and left millions of people homeless. The lockdown due to the COVID was two months old by then, this coupled with cyclone Amphan made the condition of the states pathetic. This also impacted our business. The impact of devastation as narrated by our Sr.VP Sales East, Mr.Sekhar Vikas about how our team sustained

during these catastrophic days...

“Amphan left a devastating effect on west Bengal and few of our branches were badly affected by it. As due to COVID the relief work was hampered badly and was delayed considerably. Branches which got majorly affected were Baruipur,Kolkata,Barasat,Bongaon,Diamond Harbour,Contai,Kakdwip,Basanti. There was complete communication failure due to breakdown in mobile and internet services for almost 15 days post amphan. We were unable to get in touch with our branch team and similarly branch team were unable to get in touch with customers. When things went little better we tried meeting customers and we could see their houses and business place significantly damaged. Even our sales managers residence was partly or fully damaged .

Challenge as a Business - business which was anyways affected badly by COVID lockdown was further affected by Amphan. Due to Amphan, customer business place got damaged also stocks got destroyed, their agriculture fields were flooded and hence got hit on income from either sides

Customer segments - All profiles were hit. For first seven days after Amphan we were unable to get in touch with customers. Post that we started calling up and trying to meet some of them to understand extent of damage. We made two member team in branches to meet the customers and see what help we could provide to them. Based on that we initiated top up program for customers to tide over immediate working capital requirements. We also encouraged the customers to pay his EMI so that he can avail further loan support from our end”
